

AGENDA

SYTEC 2025

7 OCTOBER 2025

08:30 AM

Welcome

09:00 AM

Introduction by Jérôme BODELLE et Keynote

09:30 AM

RECYBAT Project – Expertise Platform for Second Life Batteries

10:10 AM

NOGEBAT – Experimentation Platform: Extension and New Testing Means for the Development of New Battery Generations

BREAK

10:50 AM

Testing & Validation of New Generation Inverters: Towards more robust energy architectures

11:15 AM

Battery Chemistry – State of the Art of Technologies

COCKTAIL + TOURS

02:00 PM

Safety Battery Testing: Methods, Standards, and Homologation Perspectives

02:30 PM

VITESS Project: Development of a Digital Battery Testing Platform Based on a Multiphysics Model

03:00 PM

AI Applied to an SME and a Testing Center

BREAK

04:00 PM

Round Table: Scaling up Industrial Production – What Tempo to Electrify Mobility?
